3  COLLECTIVE MODEL -- EU-SILC DATA
4  Fall 2022
5
6  Filename:    01_Basics.do
7  Authors:    Jorge Velilla, José Alberto Molina, José Ignacio Giménez-Nadal
8              Department of Economic Analysis
9              MSc in Economics 2022, University of Zaragoza (Spain)
10
11
12  This file provides instructions to compute baseline sample preparation, summary
13  statistics of main variables, t-type tests and tabulates, baseline estimates,
14  and export estimation results.
